Introduction

The purpose of this manual is to afford an overview of the Vendors/Contractors Insurance Program for January 1, 2010 to January 1, 2011.

This Vendors/Contractors Program was developed to meet the needs of the Public Entity Sector in assuring that there is insurance coverage in place for those situations when the Public Entity enters into a contract with a Contractor or Vendor. Coverage is provided for General Liability only. By offering this coverage, the Public Entities will have the advantage of being able to contract with qualified bidders. Previously, these Contractors could not participate as they often could not meet the Entity's minimum insurance requirements.

Should you have any questions or require assistance, please contact the Vendor/Contractor Program Account Representative at Alliant Insurance Services or via email at vcprogram@alliantinsurance.com
