

Alliant Loss Control - Technical Risk Management Services

ALCS offers the following **Expert Services** to members who wish to implement Operational Best Practices:

- Vehicle Use and Operations and Fleet Liability Concerns
- Sewer Loss Prevention and Maintenance
- Police Operations
- Fire Department Operations
- Sidewalk Preventative Maintenance and Repair
- Road Maintenance
- Urban Forest Management
- Facilities Maintenance and Hazard Identification
- Contractor and Vendor Selection and Control
- Contractual Risk Transfer
- Playground Safety
- Claim Reporting and Follow Up
- ADA Compliance and Transition Planning
- Aquatics Programs
- Special Events

We are proud to offer a series of customized training programs and products that teach risk management “best practices.” The following is a redacted list of risk management training programs available through ALCS.

- Managing Sidewalk Construction, Maintenance and Repair Program to Mitigate Hazards and Claims – Provides training in liability lessons learned and provides tools to develop and maintain sidewalks in a reasonable state of repair, free of dangerous and unsafe conditions.
- Accident Investigation and Root Cause Analysis – Creates an interactive environment where incidents are defined as unplanned and undesired. The program trains participants in incident investigation methods. The trainer then guides participants through accident scenarios to help determine accident root causes.
- Disaster Management and Business Interruption – This program focuses on specific areas of vulnerability and business impact in the event of a disaster.

Larry Bailey, CSP, REM, will act as project manager. Mr. Bailey brings 24 years of loss control experience in safety, claims administration and risk management to this unique project. In the past, his risk financing approaches have resulted in \$20 million dollars in direct client savings in workers compensation and indirect costs.

Bay Area Consultants

Bob Garon, CSP, has more than 25 years of loss control and safety experience including over 16 years experience with public entity loss control. . He has conducted dozens of training programs and more than 400 loss control surveys for property and liability evaluations for public, captive, and private insurance programs throughout California.

Jimmie Montgomery has more than 26 years experience conducting vulnerability and risk assessments for cities and counties and a variety of service firms. Additionally, Mr. Montgomery has performed hundreds of investigations in criminal, fraud, security, counterintelligence, and counterespionage activities for the federal government.

Stephen K. Lightfoot II is an attorney and partner at Ropers, Majeski, Kohn & Bentley's San Francisco office who works closely with ALCS. Mr. Lightfoot also has particular experience handling residential and commercial landlord/tenant disputes, broker/seller liability and disclosure disputes, condominium and homeowners association matters, and business-to-business disputes.
