Workshop Announcement

DEFENSIVE DRIVING COURSE

Course identification, length and regulatory drivers: The following is a driver safety course outline to comply with California Code of Regulations, Title 8, Section 3203.

Class length: 2.5 hours

Attendance prerequisites: None

Target audience: Employees who drive Company vehicles.

Learning objectives: To motivate participants to change their behind-the-wheel behaviors and attitudes. Provide key skills and techniques to avoid collisions and become a more responsible driver who grasps best practices to prevent injury and death while operating a motor vehicle.

Reference and instruction materials: Driver safety handout, DVD and PowerPoint presentation.

Testing: Knowledge-based (questions to students during the course), Application-based (learning activities, small group, etc.)

Sequence of Instruction:

- The strategies, causes, and prevention of collisions.
- How to reduce collision risk with defensive driving strategies.
- Understanding how driving distractions affect driving ability.
- The definition of impairment and its dangers.
- The impact of physical, weather, road and traffic conditions.
- How to identify and minimize aggressive driving activities.
- Parking and parking lot hazards.
- Expanded instruction on roadway markings.
- Handling vehicle breakdowns.
- The four fatal driving behaviors.
