

In order to assist members in understanding and complying with ever changing Environmental health and safety (EH&S) regulations, ABAG has partnered with the local industry leader, Du-All Safety.

Located in Fremont, Ca. Du-All Safety employs 17 EH&S specialists who support the safety and compliance efforts of over 50 N. California Municipalities. Du-All Safety specializes in the development and implementation of municipality-specific written safety programs and employee training, to prevent injuries as well as comply with local, state and federal EH&S requirements.

Du-All Safety is available to members at a reduced rate, with initial meetings and questions at no charge. Typical support services Du-All Safety provides to municipalities include:

- Conducting employee environmental & safety training on *all* subjects.
- Conducting compliance assessments & site safety inspections.
- Industrial hygiene; noise sampling, air quality, asbestos & lead testing, etc.
- Updating written programs and policies.
- Helping clients with accident investigations and/or enforcement agency visits and corrective actions.
- Development and implementation of loss control strategies.
- Run or support safety committee meetings & records keeping.

Du-All Safety's goal is to reduce the injury & illness rate and put clients into a position of maintained EH&S compliance, so that they can focus on running a successful operations.

If you need assistance or have any questions, you are encouraged to contact Du-All Safety. Please be sure to introduce yourself as an ABAG member.
