Pooled Liability Assurance Network*

ABAG PLAN Invites You and Your Staff to:

PLAYGROUND INSPECTIONS IN 15 MINUTES OR LESS

There is no agency or organization today that has all the resources and time it needs to meet all the demands but the law, best practices, good conscience and professionalism require that we inspect and maintain our playgrounds to assure the safety of their users.

If you have 10-15 minutes a day to dedicate to a playground, how can you be sure that you are spending it on the REAL and most likely sources of serious injury to kids?

This practical workshop will identify

- ✓ how and to whom most serious injuries occur,
- ✓ on what equipment most serious injuries occur,
- ✓ the most important CAUSES of serious injury,
- ✓ what you can do in 15 minutes to minimize the risk to kids and your city,
- ✓ key items to always have with you for an inspection.

Join us at the South San Francisco's Fernekes Building for a fast moving discussion, an opportunity to get your questions answered and a "hands on" inspection of the near-by playground.

Who Should Attend: Anybody involved in parks maintenance

Presented by: Cathie Bigger-Smith, ARM, CSP, CPSI,
Risk Control Consultant for ABAG PLAN

Date & Time: May 23, 2017, 10:00 am – 1:00 pm
