

Risk & Roads Workshop

March 15th, 2007

9:00 a.m. to Noon

**San Mateo City Hall, Council Chambers
330 West 20th Ave., San Mateo, CA 94403**

You know the importance of having solid risk management programs for roads and sidewalks. Here is your chance to attend a practical workshop to learn about the liabilities and risks associated with your roads and sidewalks and the steps you can take to properly deal with these challenges and improve the operation of your department.

Using many examples of liability losses and injuries, workshop leader, *Doug Wyseman* drives home the need for written policies and procedures and provides same in the *Risk and Roads* manual that is provided to all participants attending this session.

Topics discussed will include **maintenance policies for roads and sidewalks, independent contractors, trees, mail boxes, potholes, road signs, inspection policies and forms, bicycle lanes, accident investigations, media relations....and much more!**

This workshop will benefit public works directors, managers, commission members, supervisors, and all staff from public works and roads departments.

Workbook manuals, including guidelines, policies and reports are included!

Sample comments:

"Great instructor/facilitator...this blows away any risk management course I've attended!"

"Excellent real world scenarios drive home important message...super manual!"

"Why didn't I know about this stuff earlier? We'll save a load of money!"

About the Presenter: *Doug Wyseman* has been involved in risk management since 1973. He has presented numerous public sector training workshops all over North America for groups such as the American Public Works Association, Public Risk Management Association, Ontario Good Roads, and many more.

The training programs he has developed have now been presented from Halifax to Honolulu and his manuals are used by over 1,000 public entities across North America. As well as the Risk and Roads manual Doug has written other manuals for the public sector including:

Small Towns...Big Risks

Risk and Recreation

Risk and Trails

Risk and Rinks

Risk Management and Skateboard Parks
