

## Training Notice

- Title: *Bloodborne Pathogen Course*
- Subject: The course teaches how to prevent disease transmission and properly control, handle, and dispose of blood and other potentially infectious materials.
- Topics: See attached talking points and description
- Who Should Attend: Anyone who may come into contact with blood or other potentially infectious materials.
- Instructor: Scott Niedzielski from Du-All
- Handouts/Reference: To be provided at training.
- Date: May 15, 2007
- Time: 10:00 a.m. to 11:00 a.m.
- Registration Starts: 9:45 a.m.
- Location: Silliman Center, 6800 Mowry Avenue, Newark, CA
- Cost: Free to ABAG PLAN Members.  
Others billed \$50 based on attendance.
- Includes: Light Refreshments (coffee, water, crackers)
- To Register: go to [www.abag.ca.gov/plan/training.html](http://www.abag.ca.gov/plan/training.html)

Contact for more information: Carol Taylor, (510) 464-7962 or [carolj@abag.ca.gov](mailto:carolj@abag.ca.gov)

## Bloodborne Pathogen Course Outline

**Course identification, length and regulatory drivers:** This is a class outline used by Du-All Safety to conduct employee training on Bloodborne Pathogens in compliance with 8, CCR 3400 and local biohazard waste disposal requirements.

**Class length:** 1 hour

**Attendance prerequisites:** None

**Target audience:** Persons who may come into contact with blood or other potentially infectious materials.

**Training location space & equipment requirements:** Classroom setting with backdrop power point projector, and lap top. This equipment can be provided by Du-All Safety.

**Learning objectives:** To prevent disease transmission and properly control, handle, and dispose of blood and other potentially infectious materials.

**Reference and instruction materials:** necessary training materials, including individual class handouts and certificates of completion at no additional cost.

**Evaluation instrument(s):** Standard evaluation form and 10 question test (optional)

**Reference training frequency:** Annually

### Sequence of instruction

- The regulatory text of the BBP standard and an explanation of its contents.
- A general explanation of the epidemiology and symptoms of bloodborne diseases.
- An explanation of the modes of transmission of bloodborne pathogens.
- An explanation of the employer's exposure control plan (as provided).
- An explanation of the appropriate methods for recognizing tasks and other activities that may involve exposure to blood and other potentially infectious materials.
- An explanation of the use and limitations of methods that will prevent or reduce exposure including appropriate engineering controls, work practices, and personal protective equipment.
- An explanation of the basis for selection of personal protective equipment.

- Information on the types, proper use, location, removal, handling, decontamination and disposal of personal protective equipment.
- Information on the Hepatitis B vaccine.
- Appropriate actions to take and persons to contact in an emergency involving blood or other potentially infectious materials.
- An explanation of the post-exposure evaluation and follow-up.
- An explanation of the signs and labels and required color coding.
- Biohazard handling and waste disposal requirements.
- An opportunity for interactive questions and answers with the professional conducting the training session.

**Class Max: 20**
